

# MARWAN MOHAMED

## Full-stack Developer

### About

Passionate Web Developer with knowledge in various technologies with more than three years' experience in React/Node. Seeking an opportunity where I can utilize my skills and knowledge to gain further experience.

### Experience

- **Egyptian Air Force, Reserve Officer** | April 2020 - February 2023

#### Software Engineer

Worked on many projects with a huge database using SQL server and MongoDB, so I gained a huge experience in data manipulating using queries and procedures. Creating professional projects using (JavaScript-jQuery-PHP-SQL server) or (React/Redux - Node - Express - MongoDB), Gaining a great experience in (authentication – Authorization - JsonWebTokens - local storage - cookies)

- **Freelance (Mostaqil – منصه مستقل)** | August 2020 – February 2023

#### Full-Stack Web Developer

Worked on many projects with many clients, specific deadlines and many technologies (React-Next-Node-Express-Php-MongoDB-MySQL-SqlServer), I always work on achieving the project requirements with a professional and documented coding, taking into consideration the security of the website with methods such as JWT, encrypted and decrypted data, All Projects are Responsive and work on all devices, many projects need to show in the first results on google search engines so I create it with Next.js technology for the SEO methods.
